a. hotel b. farms c. Nile Delta
10. Humans can control erosion by planting small
a. bushes b. flowers c. trees
11. Erosion is bad for
a. doctors b. farmers c. vets
12. Erosion happens when water or wind small pieces of earth.
a. picks off b. put on c. go away
13. Some need a lot of water to grow.
a. air b. crops c. rain
14. is electricity that happens when water moves quickly.
a. Hydroelectricity b. Energy c. Natural
15. The High Dam can water.
a. found b. lose c. store

Choose the correct answer from a, b, or c:

11. Renewable energies come from
- a. nature b. air c. water
12. Wind and water are energies.
- a. non-renewable b. replace c. renewable
13. The High Dam is in
- a. Egypt b. China c. France
14. We get coal, oil and gas from
- a. air b. water c. nature
15. Rice and sugarcane need a lot of
- a. oil b. water c. gas
16. Hydroelectricity happens when water moves
- a. quickly b. badly c. happily
17. Coal and oil harm the
- a. environment b. birds c. animals
18. is an environment problem.
- a. Natural b. Erosion c. Energy
19. Erosion often happens in the
- a. hotel b. farms c. Nile Delta
20. Humans can control erosion by planting small
- a. bushes b. flowers c. trees
11. Erosion is bad for
- a. doctors b. farmers c. vets
12. Erosion happens when water or wind small pieces of earth.
- a. picks off b. put on c. go away
13. Some need a lot of water to grow.
- a. air b. crops c. rain
14. is electricity that happens when water moves quickly.
- a. Hydroelectricity b. Energy c. Natural
15. The High Dam can water.
- a. found b. lose c. store
