Question 1

Choose the correct answer from the following options:

1-is the environment where plants and animals normally live and grow

A- country B- City C- Habitat D- Home

2- Equator Is the invisible line that passes through the middle of the map

A- True B- False

3- Organism Is a creature such as

A- plants and animals B- plants and rocks C- rocks and animals D- sand and rocks

4- When water, food, or shelter is hard to find, some animals move to other habitats

A- True B- False

5- Organisms need water , food ,shelter to survive

A- True B- False

6- Egypt is found in Asia

A- True B- False

7-..... Are the very large continuous area of lands that include countries

A- Continents B- world map C- Equator D- Habitat

8- Asia is the largest

A-country B- city C- habitat D- continent

9- The equator divides the world into hemispheres

A- 8 B- 4 C- 2 D- 3

10- Antarctica continent containshabitat

A- planet B- polar C- desert D- ocean

11 -Macaws live inhabitat

A- rainforest B- polar C- desert D- ocean

12- Camel breathes by

A-fast B- mouth C- lungs D- gills
